IT Project

**Jul 2019 –
Feb 2020**

Full Stack Developer and Team Leader: *Inventory Management System Project*

Kiss Bang Bang, Melbourne, Victoria

- Consists of four final year students acting as developers for a dropship jewellery business, helping a jewellery hobbyist in managing her different jewellerys and inventory management.
- Programmed a set of functions to create a business report based on sales, orders and deliveries data. Co-programmed barcode scan into the system for scan-in and scan-out. Co-programmed frontend development utilising bootstrap.
- Lead and coordinate tasks distribution, ensuring accountability of members is clear and monitored. Support team members for technical and non-technical issues.

Voluntary Experience

Jan 2020 - Guitar Teacher

May 2020

Place of Joy, Melbourne, Victoria

- Teaches basic and advanced guitar skills to various students, ranging from 6-10 people per session.
- Prepared lesson plans for all students to follow together with other guitar teachers.
- Directed learning and help during sessions to help students.

Mar 2019 -
